Amendment of section 21.

12. In section 21 of the said Act for the words "forty-eight hours" the words "twenty-four hours" shall be substituted.

Amendment of section 23.

13. In section 23 of the said Act, after the words "opium-revenue" the words "or any person licensed in this behalf under this Act" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

1. The defects disclosed by experience in the Indian Opium Act of 1878 and the increasing menace of the illicit international traffic in opium render it desirable to take steps to bring the Act into greater conformity with modern requirements. Before the reforms of 1919 the Government of India had the amendment of the Act under consideration. But after the passing of the Government of India Act of 1919 the position was altered. The control of cultivation and manufacture of opium and sale of opium for export to other countries remains a central subject, while the control of possession, import, export or transport within India, and the regulation of purchase and sale of opium are provincial subjects. In respect of these provincial subjects legislation is to be undertaken by the local legislatures. Hence this Bill has been drafted to bring the Act up to date in respect of those matters which fall within the sphere of the provincial legislature. No question of policy is raised in any of the amendments.

2. (*1*) Provision has been made in the Bill to confer powers of investigation and of granting bail on preventive officers of suitable standing. This should remove one of the most serious defects experienced in the working of the Act.

(*2*) Provision has been made for the punishment of persons in Bengal who assist persons outside Bengal in the commission of offences relating to opium. This enlargement of the scope of the Act has been rendered necessary by the international aspect which the illicit traffic in opium has assumed in recent years. The British law on the subject was amended in a similar way by the Dangerous Drugs and Poisons Act, 1923, and the Government of India have recommended legislation on similar lines to the Local Governments in India.

(*3*) Provision has been made for the maintenance of case diaries by investigating officers on the principles underlying section 172 of the Code of Criminal Procedure.

(*4*) The Dangerous Drugs Act, 1930 (II of 1930), was passed in February 1930 with a view to ensure a stricter and more uniform control over all varieties of dangerous drugs throughout India. This has rendered unnecessary the provision of a number of other amendments which would otherwise have been essential in the Indian Opium Act, 1878 (I of 1878).

Resolution on the report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1930-31.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 14TH JANUARY 1932.

RESOLUTION—No. 686 L.R.

Read—

The report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1930-31.

Mr. F. A. Sachse, C.I.E., held the office of the Member, Board of Revenue, Bengal, during the whole year and made extensive tours throughout the province.

2. There were no great natural calamities in the year under report, but the earthquake in July did damage in Rangpur and a cyclone in the Gaibandha subdivision of the same district damaged houses and crops. The embankment on the Goomti in Tippera was breached and a considerable area was flooded and the crops destroyed. Some areas in Rangpur, Bogra and Pabna were affected by floods in the Jamuna river, which caused damage to the aman paddy, and unseasonable weather did some damage in parts of Burdwan, Bankura and Nadia. On the whole, however, conditions were good and the harvests were abundant. On the other hand the effects of the good harvests were nullified by the fall in prices due to the world-wide depression. This resulted in a general want of money which was felt especially in the jute growing districts, where, owing to half a century of prosperity, the population is dense and a large proportion of the cultivators rely on the money they get from their jute. There was also a big fall in wages: conditions were worst in the areas which were also affected by floods. To relieve the distress and enable people to cultivate their lands the sum of Rs. 8,75,943 was distributed in agricultural loans of which Rs. 7,73,059 was distributed in the districts of Rajshahi, Rangpur, Malda, Dinajpur, Jalpaiguri, Pabna, Bogra, Mymensingh, Dacca and Tippera. Test relief works were also opened in the districts of Murshidabad, Rangpur, Pabna and Tippera and a sum of Rs. 4,000 was spent on gratuitous relief.

Public health was good on the whole except in the Burdwan Division and in the districts of Nadia, Dinajpur and Dacca. Further progress was made by Government, the district boards and union boards in removing the scarcity of good drinking water by excavating tanks and sinking tube-wells.

There were epidemics of cholera, smallpox and malaria in certain localities and kala-azar was also prevalent in several districts. Measures were taken as usual to deal with the epidemics by distribution of quinine, vaccination, anti-cholera inoculation, and to cure kala-azar cases by injections, anti-malarial and health associations were formed in several districts.

3. The general economic conditions were decidedly unfavourable. The depression in the coal industry in the Burdwan Division continued. The jute mills on the Hooghly had to reduce their working hours and discharge a large number of their hands. Cotton mills, however, were comparatively successful. In some districts, rice mills did fairly well. The boycott of foreign yarn had an adverse effect on hand-loom weavers in places like Santipur where fine cloth was produced. The tea industry in Jalpaiguri suffered from low prices and competition with Java, but the Chittagong gardens and the hill gardens in Darjeeling producing finer qualities of tea were not much affected.

The experiment of ploughing by motor tractors in Nadia had some success. A further increase in the number of motor vehicles in many districts is reported.

4. The current demand of land revenue was Rs. 3,01,76,036, an increase of about 3 lakhs, and collections were 82·23 per cent. on the total demand of Rs. 3,38,19,938 including arrears, and 92·16 per cent. on the current demand. As usual the Sale Law was administered with moderation. The number of defaults increased from 14,205 to 16,122, but only 8·82 per cent. of the total number of defaults resulted in sale.

5. There was a slight increase in the cost of management of Government estates, the percentage of cost on the current demand being 9·55 against 9·49 in

the previous year. A sum of Rs. 1,84,877 representing 3·05 of the current demand was spent on agricultural, sanitary and miscellaneous improvements, while a sum of Rs. 98,000 or 1½ per cent. on collection from Government estates was made over to the district boards of the province for expenditure on roads and communications in or leading to Government estates.

In several districts agricultural demonstrations were given of sugarcane, tobacco, pulses, vegetables, jute, paddy, agricultural implements and manures. In the Jessore khas mahal farm the cultivation of improved varieties of crops, the means of preserving fodder and the preparation of gur were demonstrated. There was a strong demand for seeds from the farms in Bogra, Rangpur and Jalpaiguri. Agricultural exhibitions were held at several places. In Faridpur, Bakarganj, Nadia and 24-Parganas experiments on a small scale of settling land with *bhadralok* for cultivation are in progress. In Faridpur a second batch of five *bhadralok* youths after completion of their training in the agricultural farm was provided with land and money.

The number of schools and the pupils attending them in Government estates increased by 263 and 21,149, respectively, during the year under review.

6. Of the twenty-two estates with an area of 178 square miles comprised in the Bakarganj Colonization Scheme, only one estate with an area of 7,249 acres, as found on remeasurement, remained to be colonized at the end of the year. The colonization of the 24-Parganas Sundarbans, which was in its sixteenth year, made fair progress during the year under report. The total sum advanced by Government for reclamation in the 24-Parganas and Bakarganj Sundarbans and the total income derived from these areas up to the end of the year under report were Rs. 24,12,481 and Rs. 30,45,670, respectively, resulting in a net profit hitherto of Rs. 6,33,189.

The general health of the people in the Bakarganj Sundarbans area was good, but the year was not prosperous owing to low prices and poor outturn of paddy; but rent collections were fair and seven new schools were opened. In the 24-Parganas Sundarbans the general health of the people was fair. Rupees 69,337 out of a total realisable demand of rent of Rs. 77,205 including arrears was collected. This is satisfactory in view of the fall in prices.

7. The zamindars, as usual, showed very little interest in the improvement of agriculture or of the economic condition of their tenants, but owing to poor collections many of them were not in a position to spare anything for these purposes. The relation between the khas mahal tenants and the tahsildari establishments continued to be cordial and no untoward incident was reported from any of the districts.

8. Thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under it.

Secy. to the Govt. of Bengal.

No. 464F.—23rd January 1932.—The following corrections, which have been authorised, are published for general information:—

The Fundamental and Subsidiary Rules, 1st Edition (Reprint), 1929.

Pages 55-56—S. R. 81.—*Insert* the following as note 1 under clause (*d*) to this rule, numbering the existing one as note 2:—

NOTE 1.—Officers (in Appendix 7 to the Fundamental and Subsidiary Rules) in receipt of an additional 50 per cent. in daily allowance for boat journeys should not get the benefit of this concession for the purpose of the exception under this rule.

Page 16—Rule 13.—*Insert* the following as Audit Instruction No. 2, numbering the existing one as Audit Instruction No. 1:—

Audit Instruction No. 2.—Fundamental Rule 13 applies only when a Government servant retains no connection with his substantive post. When a Government servant proceeds on leave, he counts service for pension in the post held substantively by him and any person appointed to officiate in that post cannot also count service in that post for pension as article 355 (*b*) of the Civil Service Regulations prohibits it. The latter must count service in the post held substantively by him at that time for pension and therefore he retains connection with that substantive post. The lien of a Government servant on the permanent post held substantively by him cannot therefore be suspended when he is appointed to officiate in another post, the permanent incumbent of which is on leave, even if there is reason to believe that his duty in that post will not terminate within three years.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 18th January 1932.

First Forecast of the Wheat Crop of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1929-30, averaged (*a*) 39·7 and (*b*) 11·2 per cent., respectively.)

Explanatory.—Four forecasts of the wheat crop are published. The present forecast deals only with the estimated area sown and the general condition of the crop in the early stages.

Acreage.—According to the estimates of District Officers, the total area sown amounts to 139,700 acres as against 136,300 and 142,900 acres reported, respectively, in the corresponding and final forecasts of last year.

Character of the season. The rainfall in the end of October and in the beginning of November was in excess of the normal. Preparatory tillage and sowings commenced in the normal time except only in Jalpaiguri, where the operations were late. Since then the weather has been dry and the present condition of the crop is reported to be fair on the whole.

No. 205P.H.—28th January 1932.—In exercise of the power conferred by sub-section (2) of section 1 of the Bengal Mining Settlement (Amendment) Act, 1931 (Bengal Act IV of 1931), the Government of Bengal (Ministry of Public Health) are pleased to direct that the whole of the said Act shall come into force on the 1st March 1932.

No. 208P.H.—28th January 1932.—The following proceedings of the 4th meeting of the sub-committee about malaria in the vicinity of Calcutta held on the 15th January 1932 are published for general information in continuation of the proceedings published with this department notification No. 3000 P.H., dated the 10th December 1931:—

Proceedings of the 4th meeting of the Malaria Sub-Committee held at Writers' Building on Friday, the 15th January 1932.

1. The following members of the sub-committee were present:—

Dr. R. B. Khambata, Director of Public Health, Bengal, President.

Dr. B. N. Ghosh, Chief Medical Officer, Messrs. McLeod and Co.

Dr. C. D. Newman, representing Chief Medical Officer, Eastern Bengal Railway.

Dr. L. M. Biswas, officiating Health Officer of Calcutta Corporation.

Dr. K. P. Mukharji, District Health Officer, Howrah.

Dr. P. S. Gupta, Municipal Health Officer, Budge-Budge.

The following members were absent:—

Mr. R. Senior-White, Malariologist, Bengal-Nagpur Railway.

Dr. S. N. Nandi, District Health Officer, 24-Parganas.

2. The progress reports of survey and control measures for the months of November and December submitted, respectively, by Dr. B. Ghosh and Dr H. Sarkar, already circulated a week before the meeting, were discussed, approved and recorded. The committee thought that the work carried out was very satisfactory.

3. The breeding places discovered during these two months were in Manshapukur and Bansra on the river Bidyadhari, about 20 miles from Calcutta, and Taki and Hasnabad, 44 and 42 miles from Calcutta on the river Ichhamuti. It now appeared that these were probably the permanent foci of infection, and that it would be easier to control these breeding places now and at this time of the year when anopheles breeding was at its minimum. These areas were situated in the jurisdiction of the 24-Parganas district board and the Taki municipality. This committee recommends that funds for taking control measures should be found by the Government and the local bodies concerned.

The committee also were of opinion that since the Budge-Budge and Chengail areas were efficiently controlled last year by spending a reasonable amount of money, these measures should be continued on the same lines during the ensuing malaria season also.

Dr. Marshal's report on malaria incidence amongst the employees of the Calcutta Tramways Company was read and recorded.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province works out at 86 per cent. of the normal this year as against 92 per cent. last year.

Taking 37 maunds as the normal yield of cane *gur* per acre, the gross outturn for the province is estimated at 272,800 tons this year as against 248,200 tons last year.

Other sources of gur.—The total quantity of *gur* likely to be obtained from date-palm juice and others is estimated at 103,400 tons this year as against 103,700 tons last year.

The quantity of *gur* for the province from all sources is thus estimated at 376,200 tons this year as against 351,900 tons last year.

STATEMENT OF OBJECTS AND REASONS.

The amendments of the Local Self-Government Act comprised in the present Bill have been adopted by Government after consideration of the recommendations of a Conference of Chairmen of District Boards held in Darjeeling in October, 1930. Though not based exclusively on these recommendations the Bill incorporates many of those made by the Conference. At the same time the object has been rather to remove practical difficulties on the working of the Act and effect specific administrative improvements than to undertake wider constitutional changes on which it would be premature to enter in the present transitional state of affairs.

Constitution of Boards.—(*i*) *Election.*—With a view to prevent frivolous candidature all candidates for election as members of Local Boards are required to deposit fees, a provision which lies outside the scope of election rules under the existing Act.

The delays arising through intervention of the civil courts in election disputes have proved a serious obstacle to the periodical reconstitution of local authorities after their term of office. Provision is therefore made to bar the intervention of civil courts in election disputes.

(*ii*) *Members.*—Provision is made for the removal of any member of a District or Local Board, if he has been guilty of misconduct in the discharge of his duties or of any disgraceful conduct.

(*iii*) *Chairman.*—As in the case of municipalities, an elected Chairman of a District or Local Board is empowered to carry out the duties of his office after his election and pending approval of his election.

With a view to avoid ambiguity the powers of the Chairman of a District or Local Board are defined and provision is made for the delegation of his powers to the Vice-Chairman.

Establishment.—Provision is made to facilitate the transfer of responsible officers (*e. g.*, District Engineer, Health Officer) from one District Board to another.

Funds, taxes, fees.—The net proceeds of the public works cess is at present made over to District Boards under executive orders. In order to give statutory sanction to this, provision is made for the transfer of the proceeds of both road and public works cesses to District Boards.

Provision is also made for crediting to District Boards all fines realised within their areas under the Bengal Vaccination Act, 1880, and the Bengal Food Adulteration Act, 1919.

The Boards are empowered to levy a tax on bullock-carts plying for hire and license fees on private *hats* and markets and on fairs or *melas*. While primarily intended as a source of revenue the power of licensing private *hats* and markets may prove incidentally of value as a means to establishing sanitary control over such markets.

Housing of Officers.—Under the existing Act District Boards are authorised to incur expenditure in providing the District Engineer with quarters. This power is to be extended to the case of other officers of the Boards.

Agricultural Improvement.—District Boards are at present competent to make grants-in-aid of measures for improving agriculture.

These powers are extended in the Bill to incurring any expenditure for the improvement of agriculture subject to the control of Government necessary for this rather wide extension of powers of spending.

Libraries.—Boards are also empowered to make grants-in-aid to libraries, and to grant scholarships to secondary schools both within and outside the district.

Sanitation.—Boards are empowered to enforce cleansing of tanks and to take other measures affecting water supply.

Communications.—As a result of experience of difficulties arising in the way of a District Board assuming its fair share of responsibility for the maintenance of arterial communications which, while passing through municipal areas, essentially serve the interests of the district as a whole, the Local Government is therefore empowered to direct the District Board concerned to maintain such a road on payment of a suitable contribution from the municipal fund.

Control.—As an alternative to supersession of a District Board in case of incompetency or wilful neglect of duty (section 131) a provision is inserted empowering the Local Government to dissolve a Board and order a general election at any time.

Bengal Public Demands Recovery Act.—Certain specified dues to District Boards are made recoverable under the Bengal Public Demands Recovery Act, 1913.

The changes which it is proposed to make in the existing law and consequential changes are explained in detail in the subjoined notes on clauses.

B. P. SINGH ROY,
Member-in-charge.

CALCUTTA :
The 6th January, 1932.

NOTES ON CLAUSES.

Clause 2.—The definition is intended to avoid unnecessary repetition in the case of amendments affected by the Bengal Village Self-Government Act, 1919.

Clauses 3 and 4.—The amendments in these two clauses are purely formal. The obsolete references to the "Lieutenant-Governor" are now entirely inappropriate.

Clause 5.—Contains a necessary definition of "corrupt practice," the provisions for dealing with such practices being contained in the new sections 15A (in clause 10) and 18B (in clause 14) and the new schedule (the Fourth Schedule in clause 68).

Clause 6.—The amendment in this clause is consequential on the adoption of the new section 15A.

Clause 7.—Section 10 has been altered so as to provide for holding a second election before appointment to make up the prescribed proportion of elected members of a District or Local Board.

Clauses 8 and 9.—The amendments in sections 11 and 13 are consequential, and are required owing to the changes made in section 10 and the provisions of the new section 15A.

Clauses 10 and 14 incorporate provisions in the new sections 15A and 18B for dealing with corrupt practices at elections as defined in the new Fourth Schedule, on the lines of sections 22(*3*) and 47 of the Calcutta Municipal Act, 1923.

Section 15A indicates the general disqualifications (including corrupt practices) for voting at an election of a "local authority" as defined in section 5 of the Act, other than a Joint Committee or a Joint Union Committee, and section 18B gives power to declare an election under the Act void on account of a corrupt practice.

Clause 11.—The new section 16A provides that candidates for election as members of a Local Board shall be required to make such deposit as may be prescribed by rules to be made by the Local Government under section 138. The return or forfeiture of the deposit is to be made in the same manner as is provided in the Bengal Electoral Rule 12.

The new section 16B is based on section 38 of the Calcutta Municipal Act, 1923, and provides for the taking of an oath of allegiance by members of District and Local Boards.

Clause 12.—Section 17 is to be amended so as to provide that the resignation of members of District or Local Boards should be tendered to their respective Boards.

Clause 13.—The new section 17A is on the same lines as section 19 of the Bengal Municipal Act, 1884, and section 42 of the Calcutta Municipal Act, 1923, and gives power to remove a member of a District or Local Board for misconduct after giving him an opportunity to state his case.

Clause 15.—The consequential amendment in sub-section (*1*) of section 19 is necessary owing to the inclusion of the new section 18B.

Clause 16.—Amendment (*a*) in regard to section 19A is merely consequential.

Amendment (*b*) substitutes a new sub-section (*3*) in section 19A and prescribes four years as the term of office of members of District and Local Boards.

Clause 17.—The new section 20A is on the same lines as section 34 of the Bengal Municipal Act, 1884, and empowers the District Board to purchase, lease and sell lands.

The new section 20B provides for the exemption of a Chairman of a District Board from registering documents, so as to avoid the necessity for his attendance at the registration office.

Clause 18.—Amendment (*1*) is formal. Amendment (*2*) adds a proviso to section 22 to enable an elected Chairman of a District Board to carry out the duties of his office after his election and pending Government approval.

A similar proviso is contained in clause 20 in regard to an elected Chairman of a Local Board.

Clause 19.—A sub-section has been added to section 23 giving District Boards the option of electing a second Vice-Chairman, if necessary.

Clause 21.—The amendment in section 27 requires the Chairman of a District or Local Board to inform the District Board on tendering his resignation.

Clause 22.—The intention of the new sub-section in section 29 is to enable the Chairman or Vice-Chairman of a District or Local Board to carry out the necessary work in the case of a casual vacancy in these offices.

Clause 23.—The new section 29AA is based on section 26A of the Bengal Municipal Act, 1884, and indicates the time for the vacation of the office of a Chairman and Vice-Chairman of a District or Local Board on the expiry of the term of office of the Board.

Clause 24.—The sub-section to be added to section 30 provides for publication in the *Calcutta Gazette* of the names of members of a Joint Committee. The term "notification" is defined in section 5.

Clause 25.—The new sections 30A and 30B, which are similar to sections 38 and 39 of the Bengal Municipal Act, 1884, provide for the holding of ordinary and special meetings of the District Board.

Clause 26.—Extends to seven days the period prescribed by section 31 for the forwarding of resolutions passed by a District or Local Board to the authority indicated.

Clause 27.—The new sections 31A and 31B define the powers of the Chairman of a District or Local Board, and provide for the delegation of his powers to the Vice-Chairman. The sections are based on sections 44 and 45 of the Bengal Municipal Act, 1884.

Clause 28.—Clause (*g*) of section 32 has been amplified in order to make it applicable to salaries, acting allowances and travelling allowances.

Clause 29.—Amendment (*1*) alters the first paragraph of section 33 so as to empower a District Board to appoint an executive officer and a Secretary, and amendment (*3*) by a new sub-section (*2*) makes whole-time service essential in the case of these officers.

Amendment (*2*) by the necessary alteration in proviso (*1*) in section 33 dispenses with the approval of the Commissioner in respect of appointments with a salary of less than two hundred rupees.

The new sub-section (*3*) in section 33 contained in amendment (*3*) provides for the transfer of officers from one District Board to another, but such a transfer is not to affect an officer's rights in respect of Provident Fund monies.

Clause 30.—The amendment in section 35 deals with the payment of gratuities by District Boards in the case of the accidental death of an employee.

Clause 31.—The amendment in section 35A contemplates the making of rules under that section to provide for supplementary contributions to the Provident Fund and the creation, at the option of District Boards, of a Special Fund for the payment of such contributions.

Clause 32.—The new sub-section in section 49 makes the approval of the Commissioner necessary in the case of resolutions of a District Board relating to certain expenditure.

Clause 33.—Amendment (*a*) sanctions the transfer of road and public works cesses to District Boards, subject to certain prior payments. The amendment follows to some extent clause (*a*) in section 22 of the Bihar and Orissa Cess (Amendment) Act, 1916. In consequence of amendment (*a*) clause (*h2*) of section 138 has been deleted—*see* clause 65(*2*) of the Bill. Amendments (*b*) and (*c*) provide for the crediting to the district fund of the fines and fees specified in amendment (*b*) and the bullock-cart tax referred to in amendment (*c*), this tax being contemplated by the new sections in clause 49 of the Bill.

Amendment (*d*) alters clause (*7*) of section 52 so as to make it legal for sums contributed to the District Board by companies to be credited to the District Fund.

Amendment (*e*) contains a consequential amendment relating to amendment (*a*).

Clause 34.—Amendment (*1*) alters section 53, *fourthly*, so as to provide for the payment from the District Fund of acting allowances, leave allowances and travelling allowances and the Finance Committee's daily halting allowances in respect of audit work. Provision for these halting allowances is made in clause 36 of the Bill.

Amendment (*2*) provides for the acquisition of land for the housing of other officers of the District Board besides the District Engineer.

Clause 35.—The intention of the new section 53AA read with the new clause (*h3*) in the rule-making section 138, dealt with in clause 65 (*3*) of the Bill, is to provide that the capital cost of works may in certain cases be defrayed from loans raised for the purpose under section 50. A somewhat similar system is utilised by the Calcutta Corporation and the Calcutta Improvement Trust.

Clause 36.—Amendment (*1*) alters section 55 so as to provide that the number of members of the Finance Committee should not exceed seven.

Amendment (*2*) contains the provision for the daily halting allowances for the Finance Committee already referred to in the note in regard to amendment (*1*) in clause 34 of the Bill.

Clause 37.—Amendment (*1*) gives power to a District Board to make grants-in-aid to libraries.

Amendment (*2*) permits grants-in-aid to be made to schools and libraries outside the area of the District Board.

Clause 38.—Amendment (*1*) applies clause (*c*) of section 64A relating to scholarships to secondary schools.

By amendment (*2*) the proviso to section 64A, which prevents scholarships being established without sanction outside the area of the District Board, has been deleted.

Clause 39.—The amendment in this clause will enable a District Board to take immediate action under section 70 in a case of great urgency.

Clause 40.—Section 73 has been amended on the lines of section 30 of the Bengal Municipal Act, 1884, so as to provide for the vesting in the District Board of the soil and subsoil beneath roads, bridges, channels and buildings.

Clause 41.—The amendment in this clause provides for the maintenance and repair by the District Board of roads which run through a municipality but also traverse the district as a whole, subject to a suitable contribution by the municipality for the purpose.

Clause 42 gives power to a District Board to close roads temporarily to traffic.

Clause 43.—A proviso has been added to section 86 laying down that plans and estimates for works below Rs. 10,000 shall not require the sanction of higher authorities, but such sanction to larger projects is not to be evaded by dividing them up into parts or instalments of less than Rs. 10,000 each.

Clause 44.—Amendment (*1*) contains a formal alteration.

Amendment (*2*) (*a*) empowers District Boards to impose a toll on any new road or reconstructed road other than *kutcha* roads.

Amendment (*2*) (*b*) prescribes the rate of interest when the expenses referred to in provisos (*1*) and (*2*) of section 86A are defrayed from a loan. Amendment (*2*) (*c*) reduces the minimum cost in the case of the bridges, etc., referred to in proviso (*2*) in section 86A to five thousand rupees.

Clause 45.—The new section 86AA empowers District Boards to construct temporary roads and bridges and levy tolls.

By the new section 86AAA the construction of a private bridge or ferry is prohibited near a bridge on which tolls are levied.

Clauses 46, 47 and 48 contain consequential alterations which are required in sections 86C, 86D, 86E and 86M owing to the changes proposed in section 86A and the adoption of the new section 86AA.

Clause 49.—The new sections 86N to 86U contain provisions for the registration of bullock-carts, the charging of fees for such registration and the seizure and sale of unregistered bullock-carts on the lines of sections 142 to 147B of the Bengal Municipal Act, 1884.

Clause 50.—The amendment is formal and is consequential on the adoption of the revised section 91 in clause 54 and the new section 91A in clause 55.

Clause 51.—The object of this amendment is obvious.

Clause 52.—Section 90 has been amended so as to give additional powers to District Boards to make provision for drinking water, bathing places, etc., and to prohibit the use of private channels and private tanks except for the purpose of drinking water. The revised section is based to some extent on section 199 of the Bengal Municipal Act, 1884.

Clause 53.—The new sections 90A and 90B are based on sections 199A and 200 of the Bengal Municipal Act, 1884. Their objects are to prohibit the use of unwholesome water and to require unwholesome tanks or private premises to be cleansed or drained.

Clause 54.—The revised section 91 provides for the formation of a Public Health Committee, and the appointment of a District Health Officer and Sanitary Inspectors.

Clause 55.—The new section 91A requires a District Board to undertake measures for the public health on the advice of the Public Health Committee.

Clause 56.—Section 93, which requires the District Board to appoint Inspectors of Vaccination, has been deleted.

Clause 57.—Amendment (*a*) gives power to the District Board to grant rewards for information in regard to dangerous epidemic diseases.

Amendment (*b*) provides for expenditure on agricultural developments and grants-in-aid for model farms or experimental measures in agriculture.

Amendment (*c*) contemplates contributions towards the local works referred to in clause (*4*) of section 100.

Clause 58.—The new section 100A empowers a District Board to grant licenses for fairs or *melas*, and the new section 100B contains a similar provision in regard to private *hats* and markets. A penalty for breach of the provisions of these sections is imposed by the new section 100C.

The new section 100D prescribes a penalty for certain offences near a public ferry.

Clause 59.—The amendment in this clause provides that an Inspector of local works shall make the inspection referred to in the second paragraph of section 123 not less than twice a year.

Clause 60.—The new sub-section (*2*) in section 125 provides for a reference to the Local Government in the case of disagreement between the District Board and the Commissioner in regard to the matters mentioned in that section.

Clause 61.—*Amendment* (*1*) gives a District Board an opportunity to offer an explanation regarding the charges made against it under section 131 before a notification is issued under that section.

Amendment (*2*).—As an alternative to supersession under section 131 the proposed proviso empowers the Local Government to dissolve a District Board and order a general election.

Clause 62.—The last paragraph of section 132, as in force in non-Union Board areas has been omitted, as being no longer required.

Clause 63.—Section 133 (*1*) has been amended so as to provide for an appeal to the District Board against the decision of the Local Board.

Clause 64.—Section 136 has been amended so as to provide that a dispute between a municipality and a District Board should be referred in the first instance to the Commissioner instead of to the District Magistrate, and the proviso to that section has been omitted.

Clause 65.—This clause embodies in the rule-making section 138 the consequential amendments required in respect of the new section 16A, the changes made in clause (*f*) of section 52, in section 53, *Fourthly* in section 91, and in section 100, and also in respect of the new sections 91A, 100A and 100B.

Clause 66.—The new section 142A provides for the recovery of certain sums due to a District Board in the manner provided for the recovery of a public demand—*see* section 3 (6) and Article 4 of Schedule I in the Bengal Public Demands Recovery Act, 1913.

Clause 67.—By the new section 147 certain officers and servants of District and Local Boards are made public servants within the meaning of section 21 of the Indian Penal Code.

The new section 148 bars the intervention of the Civil Courts in election disputes.

The new section 149 makes the period of limitation in suits for the recovery of possession of immovable properties vested in the District Board the same as that for the recovery of Government properties, *i.e.*, sixty years from the date of dispossession.

Clause 68.—The new Fourth Schedule describes the acts which are to be deemed to be "corrupt practices" for the purposes of the amending Act. It is based on Schedule II to the Calcutta Municipal Act, 1923, which follows with certain variations, Schedule V to the Bengal Electoral Rules. The other provisions of the Bill relating to corrupt practices in elections are contained in clauses 5, 10 and 14.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 3rd February 1932.

Summary.—The week was practically rainless. Preparation of lands for jute and paddy and harvesting of sugarcane are progressing favourably. Transplantation of summer rice continues. State and prospects of standing crops are reported to be generally fair but some rain is needed for their growth in some West and North Bengal districts. Distress prevails in parts of Rangpur and Mymensingh, where 282 and 547 persons, respectively, attended the test relief works. In the latter district 235 persons received gratuitous relief. The average price of common rice for the Province has fallen by about 0·83 per cent. as compared with that of the previous week.

No. 402Edn. — 6th February 1932.—WHEREAS by a notification No. 1842Edn., dated 22nd November 1919, a Charitable Endowment called "The Sussex Trust" was created, under which Government securities of the nominal value of Rs. 5,50,000 were vested in the Treasurer of Charitable Endowments for the purposes of various educational objects set forth in the Scheme annexed to such notification including the allocation of Rs. 1,00,000 of the said securities for object (*b*) Scholarships for European Girls and Rs. 1,00,000 of the said securities for object (*c*) Scholarships for the Domiciled Community.

AND WHEREAS by a further notification No. 1843Edn., dated 22nd November 1919, certain further securities were also vested in the said Treasurer under the said Scheme for the further objects therein mentioned, including Rs. 2,00,000 of Government securities for the purpose of adding to the accommodation for girls at Dow Hill Girls' School, Kurseong, and it was provided that any balance unexpended on the said purpose should be applicable to any of the objects of the original Scheme as the Director of Public Instruction, Bengal, might decide.

AND WHEREAS from such last-mentioned fund of Rs. 2,00,000 of Government securities after adding to the accommodation of the said Dow Hill Girls' School in manner provided as aforesaid there remains a surplus of Rs. 74,400 of Government securities and a sum of Rs. 2,893-13-5 in cash and the Director has decided to apply the same to certain objects, namely, an Overseas Scholarship for European and Anglo-Indian girls, which objects are considered to be partly within object (*b*) and partly within object (*c*) of the original Scheme.

AND WHEREAS under paragraph 5 of the general miscellaneous provisions of the original Scheme power is given to the Local Government to amend or alter such Scheme in manner therein provided and it has been decided accordingly by the Local Government, upon the application of the Administrator of the funds, in the absence of the donor of the fund, to amend the said Scheme by inserting after clause 9 an additional Special Endowment (*g*) Overseas Scholarship for European and Anglo-Indian girls, the same being not inconsistent with the main principles of the original objects (*b*) and (*c*), and further to amend the original Scheme by insertion of special rules for such Overseas Scholarship, to the intent that the surplus funds abovementioned may be applied by the Director of Public Instruction, Bengal, to such additional Special Endowment (*g*).

IT IS HEREBY NOTIFIED that the Government of Bengal in exercise of the powers conferred by the said original Scheme and also in exercise of the powers conferred by section 5 of the Charitable Endowments Act, 1890, upon the application of the Director of Public Instruction, Bengal, as the Administrator of the said Sussex Trust, doth hereby order and direct that the Scheme of Management of the

said Sussex Trust set forth in the Second Schedule to the said notification No. 1842, dated 22nd November 1919, published in the *Calcutta Gazette* of the 26th November 1919, be amended and modified in manner following, and that such amendments and modifications shall come into force upon the publication of this notification in the said gazette, that is to say:—

(*a*) Under the heading "Special Endowments" the following new paragraph 10 shall be inserted:—

(*g*) Overseas Scholarship for European and Anglo-Indian girls.

The income applicable for this Special Endowment shall be the income to arise from a fund consisting of the following Government securities, namely:—

	Nominal value.
	Rs.
5 per cent. Loan of 1939—44 ..	26,400
4 per cent. Loan of 1960—70 ..	13,500
4 per cent. Loan of 1960—70 ..	34,500
	74,400

and cash Rs. 2,893-13-5 (to be invested) which together represent the unexpended balance of a sum of Rs. 2,00,000 (nominal value) of Government securities given under the terms of the said Sussex Trust for the purpose of adding to the accommodation for girls at the Dow Hills Girls' School at Kurseong as provided in notification No. 1843Edn., dated 22nd November 1919, which unexpended balance is being hereby applied for the purposes of this last-mentioned Special Endowment (*g*) pursuant to the decision of the Director of Public Instruction, Bengal. The said income of this last-mentioned balance or fund shall be applied in or towards the maintenance of the said Overseas Scholarship (*g*) in manner provided by the addition hereinafter set forth to the Special Endowment Rules of the original Scheme, but such income shall also be subject to the general provisions paragraphs 1 to 5 and to the general miscellaneous provisions paragraphs 1 to 6 (or such of them as may be or become applicable) of the original Scheme.

(*b*) The said cash Rs. 2,893-13-5 shall be made over to the Treasurer of Charitable Endowments and be invested by him as far as may be in purchase of further 4 per cent. Loan of 1960-70 and any balance of the said cash remaining after investment shall be transferred to the income account of this scholarship.

(*c*) Under the heading "*Special Endowment Rules*" of the original Scheme, there shall be added the following Rules for management of the said Overseas Scholarship, namely:—

(C.) Overseas Scholarship for European and Anglo-Indian Girls.

1. The income of this endowment shall be applied (subject to rule 11 hereof) in payment of scholarships to female British subjects of pure European blood or females of the domiciled community whether (European or Anglo-Indian) ordinarily resident in Bengal or who have come to Bengal for the purpose of residing there or are otherwise connected with Bengal. The Administrator shall be solely entitled to decide whether any candidate for a scholarship is eligible under this rule, and he may call for such evidence as he considers reasonably necessary in this respect.

2. The object of such scholarship is to provide for a two years teacher's training course in the United Kingdom.

3. The recipient of the scholarship shall be selected by the Administrator in manner provided in these rules.

4. The selected candidate for the scholarship must belong to the teaching profession and must have had such teaching experience in a school as the Administrator may think sufficient. Preference shall be given to *ex*-students of the Dow Hill Training College, Kurseong.

5. The Administrator shall use such means as he shall think reasonable and at such cost as he shall think fit, having regard to the funds available, to find suitable recipients of the scholarship and may invite applications by advertisement or by circularising European schools in Bengal or otherwise. He shall consider all applications and any information he may receive as to suitable recipients and may offer a scholarship to a suitable person without formal application from her.

6. The selection shall nevertheless be restricted to those who shall appear to the Administrator to be likely by age, ability, physical qualifications and social circumstances to justify the opportunity provided and who shall be willing (if so required) to furnish an undertaking that on completion of the course in the United Kingdom she will serve in a school in Bengal for a period which may extend to three years if such a post be offered to her.

7. The scholarship shall be not less than £240 in any one year *plus* college fees and passage money to the United Kingdom and on return to India, on satisfactory completion of the course. If funds are available the Administrator may give any additional assistance for furtherance of the purpose for which the scholarship was awarded. The class of passage and the other expenditure under the clause shall be in the discretion of the Administrator.

8. The Scholarship shall ordinarily be paid to the selected candidate through the High Commissioner for India (Education

Department), India House, Aldwych, London, by half-yearly payments in advance, and the High Commissioner may make such arrangements as he may think proper for payment to the scholar direct or through the head of the institution in the United Kingdom to which the scholar may be attached, but the cost of remittance to London shall be borne by the general income of this endowment. But the Administrator may vary the foregoing arrangements for payments if circumstances shall in his opinion so require.

9. Scholars while in England shall submit themselves to the supervision of the High Commissioner for India and shall observe such directions as he shall give including such of the rules for Government scholars under his supervision as he shall consider suitable to be applied to scholars under this endowment. The scholarship shall be held subject to good behaviour (which shall include observance of the High Commissioner's directions) and shall be held so long only as the recipient shall remain a British subject and unmarried and so long only as the recipient shall continue the course of study for the purpose of which the scholarship was granted. The Administrator's decision as to whether there has been any breach of the conditions of this clause shall be final. If any scholarship is terminated under this clause the Administrator may expend such sum or sums as he may consider necessary or proper in providing for the return of the recipient to India or for other necessary or proper expenses if any. Any unexpended balance of the scholarship in the hands of the Administrator or recovered by him shall be returned to the Treasurer for accumulation towards the next scholarship under rule 11 or for addition to the capital, as the Administrator may decide.

10. Incidental expenses in connection with a scholarship shall be borne by the general income of the fund.

11. As the probable income of this Special Endowment is estimated to be about Rs. 3,240 per annum while the amount required for a scholarship for two years is estimated to be about Rs. 9,060 (including the actual scholarship of £240 each year *plus* college fees of about £40 each year *plus* passage money each way of about Rs. 750), the said income shall from time to time be accumulated by the Treasurer for such period as shall be directed from time to time by the Administrator until the accumulations shall in the Administrator's opinion suffice for one scholarship; and such period will ordinarily be three years, unless for exceptional reasons such as increased cost of college fees or passage. The income so accumulated or so much as he shall direct shall be paid to the Administrator as and when he may direct and be applied in accordance with these rules. Any surplus of the income left unexpended in his hands shall be returned to the Treasurer in the income account. Any surplus income not drawn out by the Administrator or returned by him as aforesaid may be retained in income account towards the next scholarship or if the Administrator shall so direct the surplus or any part thereof shall be invested and added to the capital of this Special Endowment.

The Charitable Endowments Act, 1890.

No. 462Edn.—15th February 1932.—WHEREAS by notification No. 1842Edn., dated the 22nd November 1919, under the abovementioned Act, certain securities and interest set forth in the first Schedule thereto were vested in the Treasurer of Charitable Endowments, Bengal, to be held for the purposes of the scheme set forth in the second Schedule thereto (being the Sussex Trust for the educational purposes described in the said scheme).

AND WHEREAS by rule 5 of the said scheme it was provided that at the end of every five years the lowest sum found to have been left untouched in that period out of the income of the fund should be treated as capital and be added to the capital of the endowment fund, and that the Administrator of the fund should apply to Government to approve an amended scheme for the application of the income arising from such added capital.

AND WHEREAS after the five years ending 31st March 1926 a sum of untouched money sufficient to purchase Rs. 40,000 (nominal) of the Government of India 4 per cent. Loan, 1960-70, was applied in such purchase and an amended scheme was framed for disposal of the investment so made (see notification No. 3849Edn., dated 25th August 1927).

AND WHEREAS during the five years ending 31st March 1931 it has been found that a sum sufficient to purchase the nominal amount of Rs. 32,000 of the 4 per cent. Loan, 1960-70, of the Government of India had remained untouched, and accordingly the said sum has been invested in the said amount of 4 per cent Loan, 1960-70, details whereof are set forth in the first Schedule hereunder written, and the Administrator has applied to have the said investments added to the fund.

AND WHEREAS the Administrator has also applied under the said rule 5 to have the said scheme further amended by providing for the income arising from the said investments being applied in manner shown in the third Schedule hereunder written, and such proposals have been approved.

AND WHEREAS the investments comprised in the Original Fund have from time to time been varied and for purposes of record particulars of the entire fund as now invested are set forth in the second Schedule hereunder written.

IT IS HEREBY NOTIFIED that the Government of Bengal in exercise of the powers conferred by sections 4 and 5 of the said Act upon the application and with the approval of the Administrator of the said fund doth hereby order and direct that the securities set forth in the first Schedule hereto shall as from the date of the first publication of this notification vest and be henceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal to be held by him and his successors subject to the provisions of the said Act and of rules framed or to be framed thereunder upon trust to permit the same and the income thereof to be used for the purposes of the said Sussex Trust Endowment in accordance with the said Original Scheme as amended by addition of the clauses Nos. 12 and 13 set

forth in the third Schedule hereunder written. And it is further notified that such amendments of the said scheme shall come into operation on the vesting of the said property in the said Treasurer.

The First Schedule.

Particulars of securities now vested.

Four per cent. stock of 1960-70 for Rs. 32,000 held by the Controller of Currency.

The Second Schedule.

The Original Fund consisted of Rs. 5,50,000 of 5½ per cent. War Bonds, 1918-28, but after the notification No. 3849 of the 25th August 1927 the fund consisted of Rs. 50,000 of 6 per cent. Loan, 1930, Rs. 2,28,800 of 5 per cent. (tax free) Loan, 1945-55, Rs. 3,63,000 of 4 per cent. Loan, 1960-70, *plus* the said addition of a further Rs. 40,000 of 4 per cent. Loan, 1960-70 (making together Rs. 4,03,000 of the 4 per cent. Loan, 1960-70). Subsequently under Government order No. 1998 Edn., dated 25th June 1929, the Rs. 50,000 of 6 per cent. Loan, 1930, was converted into Rs. 52,800 of 5 per cent. Loan, 1939-44.

2. The total present fund, after this present notification comes into force, will be:—

Total present fund.

	Rs.
5 per cent. Loan, 1939-44	52,800
5 per cent. (tax free) Loan, 1945-55 ..	2,28,800
4 per cent. Loan, 1960-70	4,03,000
Added by this present notification	
4 per cent. Loan, 1960-70	32,000

3. By the Original Scheme the six objects of the endowment were to receive respectively the income arising from five investments of Rs. 1,00,000 each and from one investment of Rs. 50,000, but owing to changes in the investments it was not practicable to assign the specified proportions of capital to the respective objects. But the total income was expended (up to 1927) in proportionate shares, namely:—

(*a*) Scholarships for European boys—two-elevenths.

(*b*) Scholarships for European girls—two-elevenths.

(*c*) Scholarships for Domiciled Community—two-elevenths.

(*d*) Primary School for Indian boys—two-elevenths.

(*e*) Primary School for Depressed Classes—one-eleventh.

(*f*) Technical Scholarships (Sibpore Engineering College)—two-elevenths.

4. After the notification of 1927 under the Additional Scheme the income from Rs. 21,000 of 4 per cent. Loan, 1960-70, was added to the two-elevenths share of income for object (*c*) Domiciled Community and the income from Rs. 19,000 of the 4 per cent. Loan, 1960-70, was added to the two-elevenths share of income for object (*d*) Primary School for Indian boys.

The Third Schedule.

Further additions to the Scheme of the Sussex Trust.

5. **Clause 12.**—In addition to the income set apart by clause 9 of the Original Scheme for the purposes of object "(*a*) Scholarships for European boys" the income arising from (and including income already accrued upon) bonds of the nominal value of Rs. 16,000 of the 4 per cent. Loan, 1960-70, purchased in respect of the five years period ending 31st March 1931 shall be applicable for the said purposes of object "(*a*) Scholarships for European boys" in accordance with the rules applicable to object (*a*) contained in the Original Scheme.

6. **Clause 13.**—In addition to the income set apart by clause 9 of the Original Scheme for the purposes of object "(*c*) Scholarships for Domiciled Community" and in addition to the income from the bonds of the nominal value of Rs. 21,000 of 4 per cent. Loan, 1960-70, set apart for the same object under the notification No. 3849Edn., dated 25th August 1927, the income arising from (and including income already accrued upon) bonds of the nominal value of Rs. 16,000 of the 4 per cent. Loan, 1960-70, purchased in respect of the five years period ending 31st March 1931 shall be applicable for the said purposes of object "(*c*) Scholarships for Domiciled Community" in accordance with the rules applicable to object (*c*) contained in the Original Scheme.

On the West—Tolly's Nullah."

STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to remove a long-standing grievance of the people of Kalighat in the matter of representation in the Corporation of Calcutta. Owing to the numerical strength of voters in the Bhowanipur area, residents other than that of Bhowanipur had little chance of being returned as Councillor. This would be evident from the result of successive elections. In fact, the chance of success in the Polls being remote, few residents of Kalighat came forward to risk defeat in the elections. A man conversant with local needs would have helped a good deal in the betterment of the sanitary condition of the locality. Some of its lanes, bye-lanes, bustees and drains clearly indicated how it has been relegated to the cold shade of neglect and indifference. This unsatisfactory state of things was to a certain extent due to want of proper representation of Kalighat in the Corporation of Calcutta. Its growing importance justified its treatment as a separate unit. Moreover, the area of Ward 22 was a very large one for which it was represented by three Councillors. In this Bill, I propose to take out of Ward 22, the Kalighat area and create a separate Ward for it, numbered as Ward 22A. As to the number of Councillors, I propose to allot two Councillors to Ward 22 and one Councillor to Ward 22A. I hope that the proposed amendment will help to remove a rather legitimate grievance of the ratepayers of Kalighat, at whose instance this Bill is being introduced in the Council.

Final Report on the Cotton Crops of Bengal, 1931-32.

(Note.—On an average of the five years ending 1929-30, the area under cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Prolonged showers in October and in the beginning of November affected the early crop in the important district of the Chittagong Hill Tracts and in the Tripura State. Elsewhere a better outturn was reaped.

The outturn of the late crop is expected to be satisfactory.

Area sown.—The total area sown with early cotton is returned at 74,327 acres as against 76,207 acres last year and that with late crop at 1,103 acres as against the same estimate last year.

Outturn.—The outturn of the early crop is estimated at 16,608 bales and the late crop at 338 bales as against 18,350 and 311 bales, respectively, last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 6th February 1932.

Third and Final Report on the Winter Rice Crop of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under winter rice in Bengal has represented some 17·5 per cent. of the total area under rice in British India.)

Character of the season.—Since the issue of the second forecast in December last, weather continued dry and was generally helpful to the reaping and threshing operations of the crop. A good crop was reaped in consequence.

Acreage.—According to District Officers' estimates, the total area under winter rice is 15,571,400 acres as compared with 15,120,300 acres last year.

Outturn.—From the summary of the district returns appended, it will be seen that one district, viz., Bakarganj, reports more than a normal or bumper crop, eight districts report a normal crop, seventeen districts a crop varying from 75 to 95 per cent. and only one district, viz., Pabna, below 70 per cent. of the normal.

According to the above estimates the provincial outturn works up to 90 per cent. of the normal as against 100 per cent. estimated by this department last year. In view of the favourable weather conditions in October and during the period of harvest, I am of opinion that the provincial outturn will not fall short of a normal crop, *i.e.*, 100 per cent.

Accepting 100 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated at 7,150,100 tons this year as against 6,943,000 tons last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 10th February 1932.

Summary.—Excepting light and scattered showers in East and parts of North Bengal, there was practically no rainfall throughout the Province. Transplantation of summer rice is progressing favourably. Condition of standing crops is generally fair but some rain is needed in parts of some West and North Bengal districts. Preparation of lands for jute and paddy continues. Distress prevails in parts of Rangpur, Bogra, Pabna and Mymensingh where 1,092, 368, 4,383 and 58 persons, respectively, attended the test relief works. The average price of common rice for the Province has fallen by about 0·15 per cent. as compared with that of the previous week.

As requested in your letter No. 2966 G., dated the 25th July 1931, I have the honour to submit herewith two statements, one showing the warehouses licensed under the Fire Brigade Act I of 1893, and the other showing the receipts and disbursements on account of the same for the year 1930-31. The former statement has been prepared in accordance with the instructions contained in the Government of Bengal, Municipal Department, letter No. 470 M., dated the 14th February 1917, to the Commissioner of the Burdwan Division, a copy of which was forwarded under his memorandum No. 137/XXIII-8, dated the 16th February 1917.

The collection of fees worked out to be 63·7 per cent. of the arrear demand and 87·5 per cent. of the current demand as against 94·5 per cent. of the arrear demand and 94·4 per cent. of the current demand of the year 1929-30. The demand for the year under report amounted to Rs. 26,231 and the collection to Rs. 22,955 as against Rs. 25,087 and Rs. 23,703 for demand and collection, respectively, for the year 1929-30.

The contribution which the Commissioners were called upon to pay for the maintenance of the Fire Brigade amounted to Rs. 57,952.

No. 2439 G., dated, Howrah the 10th October 1931.

From—Sreejut Khagendra Nath Ganguly, B.L., Vice-Chairman, Howrah Municipality,

To—The District Magistrate of Howrah.

In continuation of this office letter No. 2063 G., dated the 25th August 1931, I have the honour to state that the heavy arrear balance referred to in the second paragraph of your letter No. 3190 G., dated the 13th idem, was due to the accumulation of arrear tax under the Fire Brigade Act. This was due to the fact that numerous assessees occupying Port Commissioners' lands petitioned for reduction of Fire Brigade tax on the ground that their rents were reduced by the Port Commissioners and also on the ground that some assessees had vacated some lands. The arrear balance has since been realised to a large extent.

No. S. 6058, dated Calcutta, the 8th December 1931.

From—J. C. Mukherjea, Esq., Chief Executive Officer of the Corporation of Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government Department.

I have the honour to submit the following report under section 41 of Act I (B. C.) of 1893 for the year 1930-31 in accordance with the instructions contained in Government Order No. 387 T. M., dated the 27th May 1910.

2. During the year under report the fees under sections 10 and 24 of the said Act were levied at 10 per cent. on the annual valuation of warehouses, as in the preceding year.

3. A statement showing the receipts and disbursements of the Licensed Warehouse Fund and a list of jute and other licensed warehouses for the year, 1930-31, as desired in Government Order No. 469 M., dated the 14th February 1917, are appended.

No. 6899, dated Calcutta, the 29th August 1931.

From—L. H. Colson, Esq., Commissioner of Police, Calcutta (offg.),

To—The Secretary to the Government of Bengal, Local Self-Government Department.

I have the honour to submit herewith the report of the Chief Officer of the Calcutta Fire Brigade for the financial year ending 31st March 1931.

The Chief Officer's report gives full details of the working of the Brigade.

No. F.B. 478, dated Calcutta, the 28th August 1931.

From—Captain Bernard A. Westbrook, O.B.E., Chief Officer, Calcutta Fire Brigade,

To—The Secretary to the Government of Bengal, Local Self-Government Department.

[Through L. H. Colson Esq., Commissioner of Police, Calcutta (offg.).]

I have the honour to submit the following report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1931.

With few exceptions the work of the department was normal, but on various occasions it was found necessary to order general stands-by, and to stop all leave in order to be in a position to deal with emergencies that were likely to arise.

On April 15th at 7-30 a.m., an unfortunate incident occurred during a period of communal trouble. In the Kalighat district rioters set fire to 3 tramcars and 4 fire engines and 26 men responded to the call. During the process of extinguishing the fire the crowd placed obstacles on the road to prevent the return of the fire engines, and whilst the members of the Fire Brigade were removing these obstacles the crowd commenced to throw missiles at them, with the result that 17 firemen were injured. Engineer H. Coward, Fireman H. Durrant and khallasi Sk. Md. Hasid were seriously injured and admitted to hospital where it was found that Fireman Durrant was suffering from a severely fractured skull. An operation was performed and eventually Fireman Durrant was sent to England for further treatment, but subsequent medical opinion now received states that no further operation can be carried out, and it is anticipated it will be necessary to invalid Fireman Durrant from the department on the expiration of his present leave. Eighteen months "Disability leave" was granted to him.

Sk. Md. Hasid received severe head injuries which necessitated his being invalided from the service on "Invalid pension."

Engineer H. Coward also received severe head injuries but recovered, and was discharged from hospital after three weeks' detention.

The remainder of the men who were injured were treated at hospitals, but it was not found necessary to detain them therein for more than a few days.

The thanks of the Fire Brigade are due to the staff of the Presidency General Hospital, and also to the staff of the Police Hospital for the prompt and efficient attention given to the injured men.

The fire engines which attended the call were damaged.

The conduct of all the men who responded to this call was excellent, and special mention has been made in their Service Books in each case.

As a result of the communal tension there has been a considerable increase in the number of wilful false alarms received from street fire alarms of which special mention is made herein after.

Financial statement.—The statement of receipts and expenditure and payments made by municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse Act (I of 1893) is given in Appendix I.

The cost of maintenance of the Fire Brigade is derived from contributions by (*a*) the Calcutta Municipality and (*b*) the Howrah Municipality, the former contributing 86 per cent. and the latter 14 per cent.

Fees for licensed warehouses are charged under section 10 of the Licensed Warehouse and Fire Brigade Act I of 1893, and are levied at 10 per cent. of the annual valuation of warehouses, subject to a maximum of Rs. 750 per warehouse per annum, and the income thus derived is credited to the Fire Brigade Fund, and deducted from the amount required from the municipalities concerned. In this connection it is satisfactory to note that the amount actually required to be paid from the rates for the maintenance of the Fire Brigade is considerably reduced.

During the year 1929-30, 41 per cent. of the contribution required from the Calcutta Municipality was derived from this source leaving 59 per cent. only to be contributed from the rates, but owing to the prevailing depression in trade and the fact that so many warehouses are now unoccupied it is estimated that this percentage will not be maintained. The contribution from the Calcutta Municipality to the Fire Brigade Fund in 1929-30 was Rs. 2,15,840. A similar percentage approximately applies to the Howrah Municipality which contributed Rs. 35,684 in 1929-30. Rupees 7,123-8 was received in fees for attending fires out of the jurisdiction of the Calcutta Fire Brigade.

Fires, etc.—The total number of calls for fires, or supposed fires was 691, being an increase of 50 as compared with the average for the past ten years, and an increase of 74 as compared with the previous year. The actual number of calls for fires was 490, which shows a decrease of 9 as compared with the previous year, and the number of fires classed as serious is 12 as compared with 16 in 1929-30.

The following statement shows the hours when the calls were received:—

During the year under review 156 wilful false alarms were received from street fire alarms, which shows an increase of no less than 105 over the previous year. These false alarms given wilfully by irresponsible persons have caused considerable inconvenience to the department, particularly during the disturbed months of April and May, when communal tension was particularly prevalent. The majority of the malicious false alarms occurred in Police Sections A, B, D, and U.

Unfortunately practically no assistance is rendered by the shopkeepers, householders or the general public in the vicinity of a fire alarm either in apprehending any misguided person who gives a false alarm of fire, or by giving any information likely to lead to the arrest of an offender.

There is no doubt that the street fire alarm system is appreciated, and by its use the Fire Brigade has on many occasions received early calls to fires and has thus been able to prevent considerable damage which otherwise would have occurred. Therefore it would undoubtedly be a retrograde step, so far as the fire protection of the city is concerned, to close down any individual fire alarm, or even the whole system, but this drastic action will have to be seriously considered in the near future unless there is a marked reduction in the number of malicious false alarms. The public generally, and particularly those in the immediate vicinity of street fire alarms, would thus be deprived of the quickest and most direct method of calling the Fire Brigade in case of need by the unconsidered actions of a small and irresponsible section of the public, and reliance would have to be placed entirely upon the use of private telephones, or by sending messengers to fire stations to give information of fires.

If the need for such action does arise it is first proposed to deal with individual street fire alarms, and to remove the same to such positions where there is more likelihood of their true value veing appreciated,

but it is hoped that the co-operation of the public will now be directed to preventing misguided persons from abusing the use of such a system which is installed purely for the benefit of the public in general.

Regarding false alarms of fire from private telephones I am glad to report that very little trouble occurs in this connection. This is entirely due to the much appreciated action of the Bengal Telephone Company in disconnecting subscribers who permit their instrument to be used for such purposes, either knowingly or unknowingly, otherwise there is no doubt the number of false alarms from this source would have been much greater. Four false alarms of this nature were received during the year under review, which is the same number as the previous year.

Twenty-four false alarms were due to electrical defects in the street fire alarm systems as compared with 37 during the previous year, and the number of false alarms either accidental, or given with good intent, is 13, (7 in 1929-30).

The calls are classified as follows:—

Fires	490	(490)

The actual number of calls received during the year was 983, as compared with 941 during the previous year. These figures include instances where more than one call was received for the same fire, and are given for the purpose of classifying and comparing the means by which calls were given.

These calls were transmitted to the Fire Brigade as follows:—

By street fire alarms 458 (364 in 1929-30); by private telephones 486 (531 in 1929-30); by messengers giving information at fire station 28 (24 in 1929-30); by police telephones 4 (6 in 1929-30); by firemen on lookout-duty 4 (12 in 1929-30); by direct telephones from theatres and public buildings 3 (4 in 1929-30).

Regarding the calls for actual fires in 194 cases the first information was transmitted to the Fire Brigade by means of street fire alarms, and in 264 cases by private telephones.

Fires in licensed premises.—Twenty-nine fires occurred in premises licensed under the Licensed Warehouse and Fire Brigade Act I of 1893, as compared with 42 during the previous year.

Means by which fires were extinguished.—In 280 cases fires were extinguished by means of first-aid machines, chemical fire extinguishers, buckets of water, by individual firemen, or by the occupants before the arrival of the Fire Brigade; in 108 cases by 1 motor fire engine; in 22 cases by sand; in 16 cases by 2 motor fire engines; in 16 cases by cutting electrical fuse; in 13 cases by 1 hydrant; in 12 cases by 3 motor fire engines; in 3 cases by 2 hydrants; in 2 cases by 4 motor fire engines; in 2 cases by 1 motor fire engine and first-aid; in 2 cases by 1 motor fire engine and hydrant; in 2 cases by 7 motor fire engines and hydrants; in 2 cases by fire float; in 1 case by 7 motor fire engines; in 1 case by 7 motor fire engines and fire float: in 1 case by 5 motor fire engines; in 1 case by 2 motor fire engines and fire float; in 1 case by 3 motor fire engines and hydrants; in 1 case by 3 motor fire engines and fire float; in 1 case by 1 motor fire engine and fire float; in 1 case by 3 motor fire engines and hydrants; in 1 case by 2 motor fire engines and hydrants; and in 1 case by 8 sprinkler heads and 6 hydrants.

Fire loss.—The total damage caused by fire and water during the year has been estimated at Rs. 7,26,040, being a decrease of Rs. 6,14,734 as compared with the previous year. The average damage per fire is Rs. 1,481, as compared with an average of Rs. 2,843 for the last ten years. The average fire loss per annum for the last ten years is Rs. 13,93,487.

The loss per fire is classified as follows:—

333	fires under Rs. 100	..	(358)
99	fires from Rs. 100 to Rs. 1,000	..	(95)

Appliances.—The following is a list of the principal appliances now in commission by the Calcutta Fire Brigade:—

Eighteen motor fire engines as follows:—

One motor pump, 600-800 gallons per minute capacity, fitted with scaling ladders, etc. (motor pump No. 2).

Five motor pumps, 500-700 gallons per minute capacity, fitted with 55 feet telescopic fire escapes, etc. (motor pumps Nos. 1, 15, 18, 19 and 20).

Two motor pumps, 450-550 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, scaling ladders, etc. (motor pumps Nos. 9 and 10).

Three motor pumps, 450 gallons per minute capacity, fitted with scaling ladders, etc. (motor pumps Nos. 8, 11 and 14).

Three motor pumps, 400-500 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, etc. (motor pumps Nos. 5, 6 and 7).

Three motor pumps, 300 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, etc. (specially designed for use in narrow streets and congested areas), (motor pumps Nos. 3, 12 and 16).

One motor trailer pump, 250 gallons per minute capacity (specially designed for use in positions that cannot be reached by the ordinary type of motor fire engines).

The total number of pumping hours at fires during the year is 721.

Fire stations.—Appendix IV gives the number of times each fire station has been turned out in response to fire calls, together with monthly statements.

On May 20th, 1930, a new fire station was opened in the Nimtolla district, and thus much improved fire protection has been provided for this area which contains a great number of very serious fire risks. Since the opening of this station until the close of the year under review this station has responded to 193 fire calls, and has been largely instrumental in preventing any fires of a serious nature occurring in the locality which it protects in conjunction with other fire stations.

Plans have been passed for a two-bay fire station in the Kalighat area, and building has been commenced. It is anticipated this fire

station will be opened in May 1931 and increased fire protection for this growing and populous area will then be provided.

Fire Brigade Headquarters are still located in rented premises in Corporation Place. The site is excellently situated, but the premises are inconvenient and lack sufficient accommodation. However, owing to the present financial stringency and difficulty in finding a suitable site for the erection of permanent headquarters it is anticipated that the Fire Brigade will have to remain in occupation of the present headquarters for some years. With this object in view many improvements have recently been carried out.

Staff.—The strength of the Brigade during the year remains the same as last year, viz., 268, as detailed below:—

One Chief Officer, 1 Second Officer, 1 Chief Engineer, 5 Station Officers, 8 Engineers, 7 European firemen, 1 Warehouse Inspector, 3 clerks, 1 store-keeper, 3 telephone operators, 2 carpenters, 2 lathe mechanics, 1 fitter, 1 blacksmith, 1 tinsmith, 10 Indian drivers, 1 head-tindal, 18 tindals, 190 khallasis and 11 menial employees.

The conduct and discipline of the staff throughout the year have been excellent.

Fatalities and accidents.—Appendix VI gives short reports of fires and special occurrences involving loss of life or serious accidents.

The number of lives lost during the year under review is 11, as compared with 17 the previous year.

Of these 2 deaths were caused by upsetting oil lamps, 3 are supposed to be cases of suicide, 1 was caused by playing with fireworks, 1 was due to electrocution on a standard carrying high tension wires, and 4 persons were trapped in buildings on fire.

Forty-four persons were injured (as compared with 34 the previous year), which figure included 17 firemen injured by rioters, and 7 firemen injured whilst extinguishing fires.

No serious accidents occurred during training recruits, or at drill.

In all cases where necessary first-aid was rendered by the Fire Brigade, and the injured persons conveyed to hospitals by motor ambulances.

Water-supply.—In no case has there been any serious shortage of water in that part of the jurisdiction in which mains and hydrants are installed. A considerable amount of work has been carried out in laying larger mains where necessary from which benefit has been derived.

There have been instances when it was necessary to close down pumping stations to effect repairs to mains, etc., during which periods improvised arrangements have been made by the Fire Brigade to cope with fires. Fortunately no serious fire occurred when the water-supply was not available, and the improvised arrangements enabled the Fire Brigade to deal with such calls as were received. The danger of fires developing during such periods, however, must be pointed out, and it is to be hoped that such shuts-down will not be made unnecessarily, and that they will be limited to the minimum possible time.

It is essential that further sluice valves should be provided in the water-supply system so that repairs can be effected without closing down completely.

I again regret to have to report that no progress has been made in providing a water-supply for fire extinguishing in the Chitpore-Cossipore district and the resources of the Fire Brigade are often severely strained in dealing with fires which occur in that area. The only available water is from ponds and the river which necessitates the use of enormous quantities of hose. Frequently as many as three hundred 75 feet lengths of hose are used in extinguishing one fire.

It is hoped that the provision of a suitable water-supply for fire extinguishing in this district will shortly receive the consideration its importance demands.

The scarcity of water for fire extinguishing in the Howrah district also gives rise to the greatest apprehension.

A scheme has been submitted and approved for the provision of hydrants on some existing mains. This scheme does not involve any great expenditure, but I understand that the Howrah Municipality cannot proceed with the work as funds are not available. The risk of a great fire developing in the Howrah district is ever present and I trust that arrangements will be made to put the work in hand without any further unnecessary delay.

The fact that the fire float cannot approach certain portions of the Howrah river bank at low tide further complicates matters, and often the greatest difficulty has been experienced in obtaining sufficient water even to stop fires from spreading.

The question of provision of water-supplies in the Chitpore-Cossipore and Howrah districts has been periodically reported to the authorities concerned for many years, and I have again to point out that the conditions are gradually becoming worse as many of the ponds hitherto relied upon for the supply of water are now being filled up on sanitary grounds and to provide sites for building. Both the Chitpore-Cossipore and Howrah districts abound with serious fire risks including a great many jute warehouses and presses. As the only available supply of water in these areas is often at a considerable distance from the fire, a great deal of pressure is lost in friction in the long lines of hose required and consequently the streams of water available at fires are not so effective as they should be, as frequently it is not practicable to resort to relay pumping. In this connection I would particularly point out that this makes the work of the firemen extremely hazardous as they have to approach much closer to burning buildings and take up more dangerous positions than would otherwise be necessary. The majority of the warehouses are very badly constructed, and the expansion of jute when involved in a fire rapidly causes the walls and roof to collapse.

Fire float.—The fire float (5,000 gallons per minute capacity), is stationed on the river opposite to Prinsep's Ghat. During the year under review it responded to 8 calls, as compared with 16 the previous year.

Street fire alarms, telephones and electrical communications.—I am pleased to be able to report that the street fire alarms and telephones have

been well and efficiently maintained by the Bengal Telephone Company, Limited. All necessary repairs have been promptly carried out, and every possible assistance has been rendered by all ranks of this Company.

Inspection Department.—A large number of new cinemas have been licensed during the year. Adequate fire appliances are installed in the majority of theatres, cinemas and places of public amusement, and with few exceptions such premises present no abnormal fire risks.

The work of inspecting these premises is carried out by a Corporation Official. Over-crowding has been evident at times, and action has been taken.

No serious fires occurred in theatres, cinemas or places of public amusement during the year.

In connection with the Licensed Warehouse and Fire Brigade Act I of 1893, 5,098 inspections of warehouses have been made during the year. Four hundred and twenty-one applications and complaints have been attended to and disposed of. One hundred and forty-nine prosecutions were made under section 14 of Act I of 1893, which resulted in 73 persons being fined, the fines aggregating in all to Rs. 855. Fourteen persons were warned and discharged, 14 persons were acquitted, 9 cases were withdrawn and 39 cases were filed owing to there being no trace of the parties concerned.

General.—The Calcutta Fire Brigade protects the City of Calcutta and the Municipality of Howrah, and may attend fires outside the boundaries of the above, but not exceeding a radius of 6 miles from Fire Brigade Headquarters, provided appliances can be spared, and on payment of a prescribed fee. The total area protected is approximately 120 square miles, comprising a population of over 200,000 persons.

Ambulance Department.—The Motor Ambulance Department has again done excellent work and is much appreciated by the public. No less than 14,681 (17,296 in 1929-30) calls were received during the year under review.

I again regret to have to report that great difficulty is experienced in finding accommodation for patients in hospitals.

In 301 cases patients were taken to 2 hospitals endeavouring to find accommodation for the case. Likewise 82 were taken to 3 hospitals, 28 were taken to 4 hospitals, 10 were taken to 5 hospitals, 7 were taken to 6 hospitals, 9 were taken to 7 hospitals, 8 were taken to 8 hospitals, 5 were taken to 9 hospitals and 2 were taken to 11 hospitals.

In 409 cases accommodation was eventually found but in 43 cases patients had to be returned to their dwellings, etc., as no hospitals accommodation whatsoever was available.

The lack of hospital accommodation is rapidly becoming more evident.

It is no unusual occurrence for ambulances to be engaged for two or three hours vainly endeavouring to find beds for patients, consequently the time occupied per case is much higher than it ought to be and unless further hospital accommodation is provided the Ambulance Department must be considerably augmented to avoid delay in responding to calls.

The time occupied by ambulances searching as above for hospital accommodation amounted to 731 hours 26 minutes and it is anticipated that this figure will be more than doubled during the forthcoming year. It is also found that ambulances are frequently unnecessarily requisitioned for cases which could be removed to hospital by other means. It is hoped that the public will discontinue this practice, as thereby the response to many calls for urgent and deserving cases is delayed owing to all the ambulances being otherwise engaged.

In cases of calls for persons ill on the public streets ambulances respond immediately without enquiries being made, but when a call is received for a person ill in a private house, etc., the party requisitioning the ambulance is required previously to arrange accommodation in a hospital and the request for the ambulance has to be made by a doctor. Unfortunately this has led to a further abuse of the department inasmuch as many sick persons are now removed from private houses and placed on public footpaths, etc., and then when calling for an ambulance the case is described as "a sick person on a public thoroughfare." Further in cases of sick persons in private houses to evade the trouble of arranging for accommodation in a hospital and to obtain a doctor's requisition such cases are frequently wilfully misrepresented to be "Accident cases," when of course the ambulances immediately turn out—very often indeed unnecessarily.

Sick street beggars have been a great strain on this department, and ambulances have been occupied for no less than 1,254 hours in dealing with cases of this nature. During the forthcoming year there is no doubt this figure will be much greater.

Under existing circumstances the department, as at present constituted, cannot efficiently cope with the work as is evidenced by the large number of calls to which response was delayed owing to all the ambulances being engaged on other calls. To remedy this the personnel and number of ambulances must be considerably increased, or the rules regulating the use of ambulances amended to check the abuse of the department as above mentioned, and which unfortunately shows a decided tendency to increase.

The matter has been represented to the Health Committee of the Corporation, but so far no action has been taken.

Appendix VII gives a brief summary of the work done and Appendix VIII gives the rules governing the use of the ambulances.

The present staff consists of 10 drivers and 20 attendants, with 12 motor ambulances. Several of these machines have been in commission for over 10 years. A provision was made for 6 new ambulances in the Corporation Budget for 1930-31, but this expenditure has been postponed for the present. It is essential that new ambulances should be purchased without delay and put into commission. Likewise provision was made in the Establishment Budget for 1930-31 for 2 extra drivers and 4 extra attendants, but this also is postponed.

The department is maintained financially by the Government of Bengal and the Corporation of Calcutta, the contribution from the Government of Bengal for the year under review being Rs. 11,800 and the balance of Rs. 46,800 being paid by the Corporation of Calcutta.

The receipts during the year amounted to Rs. 4,234 and the total expenditure was Rs. 58,600.

NOTIFICATION.

Minister-in-charge: The Hon'ble Mr. Bijoy Prasad Singh Roy.

No. 352P.H. — 17th February 1932.—The following ad interim report of the Committee appointed to examine the proposals of the Calcutta Corporation for a drainage outfall in resolution No. 1732P.H., dated the 29th July 1931, published on page 915 of Part I of the issue of the *Calcutta Gazette*, dated the 6th August 1931, is published for general information.

C. W. GURNER,

Secy. to the Govt. of Bengal.

Ad interim report of the Drainage Outfall Committee.

The Committee, having examined the reports of Dr. Dey putting forward a scheme for a new drainage outfall for Calcutta, and having had the opportunity of discussing the scheme with Dr. Dey personally at two meetings, has arrived at the conclusion that the scheme would be unworkable, because the proposed dry weather channel would silt up rapidly and because the sluices provided in the scheme are much too small.

The Committee considers that a channel of the type shown in the scheme would operate successfully when discharging clear water provided the sluices were sufficiently enlarged, but would not operate successfully when dealing with crude sewage as in the present case.

In the opinion of the Committee the method by which Dr. Dey has calculated the discharging capacity of his channel and the velocity of the flow is fundamentally wrong, in that he has assumed that the surface slope of the water would be uniform from end to end of the channel at different stages of the tide, whereas actually it would be flattened at the down stream end directly the tide-level rose to the water-level inside the sluice.

The Committee is of opinion that sewage could be passed to the Kulti only by a pumping arrangement, such as that designed by Mr. Ball Hill in the year 1914.

Dr. Dey was given the opportunity to demonstrate the practicability of his scheme, but this he failed to do to the satisfaction of the Committee, as the minutes of the two meetings will show.

One of the consequences of the incorrect assumption made by Dr. Dey in his calculation is that the velocity of flow at the down stream end of the channel would be reduced below the critical velocity at an earlier stage of the tide then anticipated by Dr. Dey and the period of silt deposition would be proportionately increased.

Moreover the calculations of the rate of silt deposition, as furnished by Dr. Dey, indicate that he has assumed that silt will deposit only when the channel is completely tide-locked, whereas deposition will occur in practice whenever the velocity of flow is reduced below the critical velocity.

As there is no mention of silt deposition in Dr. Dey's reports the Committee was surprised to learn from Dr. Dey subsequently that the adoption of mechanical means of silt removal was in contemplation.

His suggestion that a drag line excavator, intended to operate in the existing storm-water channels, could be used in the proposed *pucca* sewage channel is regarded by the Committee as quite unworkable.

The other method of silt removal suggested by Dr. Dey, that of flushing with clear water from swamps on the north side of the channel, also appears to the Committee to be impracticable, seeing that the channel would be continuously and fully charged with D. W. flow of sewage and any added flow of flushing water would be ineffective.

With a view to studying the question of the silting up of the Bidhyadhari river or of any future outfall channel the members of the Committee paid two visits to the existing suburban storm-water reservoir into which the sewage now flows and found that it has become almost completely silted up.

They, therefore, suggest for the consideration of the Corporation that the reservoir be cleared out, or abandoned in favour of a new reservoir constructed alongside the existing reservoir so as to utilize one of the existing embankments. This should be looked upon as a matter of some urgency in dealing with the sewage disposal problem.

In view of the possibility of operations of this nature the Committee is of opinion that the following three items of work which are included in the internal drainage scheme as sanctioned by Government should be postponed until a decision has been reached with regard to the outfall question:—

(1) High level open guiding channel along existing suburban reservoir from point A to Byntala.

(2) High level open guiding channel along Central Lake channel from Dhapa to Byntala.

(3) Remodelling town and suburban head cuts and town storm-water reservoir (*vide* items 6 (*i*) (*ii*) and (*iii*) of Dr. Dey's estimate for Rs. 65 lakhs).

Further means for dealing with the Calcutta outfall problem will be discussed by the Committee in a later report. In the meantime it is proposed to construct a model, or "hydraulic map" as suggested by Mr. Griffin, by means of which the examination of the problem may be continued.
